[Amazon.com: Customer reviews: Development Through the ...](#)

This is a good book outlining the basics of lifespan development (physical, cognitive, and social-emotional). For a textbook it is pretty interesting, though somewhat dry at times. The stories at the beginning of the chapters aren't all that boring (especially for the traditional beginning-of-the-chapter "hook" stories), so that is a nice change. The best parts of the book are the chapters on development up through adolescence. After that, it seems a bit redundant and basically like she's ...

[Life-Span Development by CTI Reviews | NOOK Book \(eBook ...](#)

Developing Through the Life Span Review 4.3: Social Development Many years later, Elena's daughter Leah asks her 90-year-old grandmother Sonya about her early life. Sonya tells Leah, "I had a wonderful childhood, with loving parents who made me feel safe and secure." Developmental theorist Erik (1) Erikson might say that this secure (2) attachment allowed Sonya to develop a sense of (3) ...

[Chapter 4 Developing Through the Life Span](#)

I very much appreciated her personal stories about her family and her experiences with Lifespan Development. However, the book is extremely lengthy, filled with research references containing arguments and counter-arguments, with the forest often being lost to an emphasis on the trees. I am reading the entire textbook to myself and into an audio recorder, which is how I study difficult material. Each chapter is 3-4 hours worth of tape and there are 19 chapters in this 6th Edition. I am not ...

Lifespan development and lifelong learning. 'Development' is one of those familiar concepts that seeps almost unnoticed into the conversations of educators. They are self-evidently concerned with the development of people. But what is development? Are there particular stages that we pass through in our life course? Contents · introduction · development · stages · gender, culture and ...

[Lifespan Perspectives on Careers and Career Development](#)

Lifespan development explores how we change and grow from conception to death. This field of psychology is studied by developmental psychologists. They view development as a lifelong process that can be studied scientifically across three developmental domains: physical, cognitive development, and psychosocial. There are many theories regarding how babies and children grow and develop into ...
