PHYSICS 20 ALBERTA WORKBOOK

Oct 31, 2020

[Physics 20 Alberta Workbook](#)

Physics 20. Unit Links. Final Exam Review. Unit A - Kinematics. Unit B - Dynamics. Unit C - Circular Motion. Unit D: Energy, Work, Oscillatory Motion and Mechanical Waves (5 credits) Recommended: 65% in Science 10 This course builds on the physics skills and concepts learned in Science 10, and continues with the study of classical physics. The topics covered in Physics 20 are Kinematics and ...

Physics 20 students investigate the motion of objects. They apply Newton's law of universal gravitation to astronomical observations. They also describe how energy is transmitted by mechanical waves and how waves relate to medical technologies, industry and musical instruments. Physics 30 When does a model or a theory need to change? Physics 30 students consider historical experiments and ...

Physics is the study of laws that govern the behaviour and interaction of energy and matter. Physicists seek to understand the ways that matter and energy interact through experiment, observation and mathematical models. Physical interactions are fundamental to many phenomena in Nature and form the basis of our understanding of the universe. During the course of your studies, much of your ...
