Chem 116 POGIL Worksheet - Week 4 Properties of Solutions Why? We have discussed the properties of gases, liquids, and solids as pure substances. But most of our use of these phases is in the form of mixtures. Solutions, which are homogeneous mixtures, have properties that are altered from the properties of their individual components. An

POGIL® (Process Oriented Guided Inquiry Learning) is a student-centered instructional approach in which students work in small teams with the instructor acting only as a facilitator. The specially designed activities follow a learning cycle paradigm in which students are presented with data or information to interpret and guiding questions to lead them toward valid conclusions-essentially a recapitulation of the scientific method. Students develop content mastery by constructing their own ...

Sharing Solutions, Creating Community. As an associate professor of chemistry at Florida Southern College, An-Phong Le was already dedicated to student-centered learning. Florida Southern is a small, private college that expects teachers to embrace active learning, and that mandate dovetailed nicely with how Le used the POGIL method in his own classroom. "Engaged learning is part of our tenure ...
