Supply Chain Management. individual functions to integrating activities into key supply chain processes. An example scenario: the purchasing department places orders as requirements become known. The marketing department, responding to customer demand, communicates with several distributors and retailers as it attempts to determine ways to satisfy this demand.

[Purchasing and Supply Management - P. Fraser Johnson ...](#)

According to Johnson, Leenders, & Flynn (2010), the contributions of purchasing and supply management can be divided into several different categories. Their functions can be operational vs. strategic. Operational refers to the day-to-day transactions and functions associated with the purchasing process. However, the strategic side of supply is what places purchasing and supply management as ...
