Objectives. Understand the times construct and how it implements looping; Build a method using times; Introduction. The next construct in our list is times. There are two important distinctions to be mindful of when using times. The first one is that it has to be called on an Integer (like 1 or 10000). The second is that it executes the block a certain number of times, which is dependent on the ...

A time loop, also known as an ouroboros loop (AUDIO: The Tears of Isis) chronic hysteresis, (TV: Meglos) and called tempetrification by the people of Manussa, (PROSE: The Terrible Manussa) was a loop in time in which the occupants experienced the same events in endless repetition. An accurate time loop took little energy to perpetuate. An incomplete time loop (where each repetition was not the ...
